Who can enroll at ASU Prep Casa Grande High School?

Students can enroll if they're not in 12th grade.

Yes. We are currently enrolling 9th-12th grades at Casa Grande campus. In order to enroll at a 9th grade, you must have completed at least 8th grade, or are on track to complete 8th grade.

What is the enrollment process?

Visit https://asuprep.asu.edu/enrollment for information about our enrollment process. All enrollment applications are available online.

Is there a fee or tuition for attending?

Yes. We also require fees to be paid for the programs and extracurricular activities. Fees vary depending on the program.

What is the school schedule?

The school year begins August 6. The school day begins at 7:00 a.m. on Monday, with opportunities for tutoring and extracurricular activities each day after school. Fridays, the school day ends at 11:40 a.m.

Where is the school located?

The school is located on the Francisco Grande Resort grounds at 2612 W. Gila Bend Hwy, Casa Grande, AZ 85193.

Is transportation to the high school provided to students?

Bus transportation is available (contact us for pick up locations).

Are teachers at ASU Prep highly qualified?

Yes. We hire teachers who are highly qualified in their content areas. They have demonstrated proficiency in their content area through coursework and are a member of the ASU Prep team. Teachers take 24 hours of specialized training in pedagogy that is based on research of best practices for enhanced student learning.

Additionally, all teachers have mentors who work closely with them to continuously provide coaching and support to meet the needs of our learners.

What is the curriculum used at ASU Prep?

ASU Prep uses the Cambridge International Curriculum. This rigorous program, which is aligned to the Arizona College and Career Readiness standards, prepares all students to be ready for college.

Students also have the opportunity to take ASU Online courses supported by ASU Prep faculty so you’re not alone in your educational journey.

How does ASU Prep utilize the Cambridge Curriculum?

The Cambridge curriculum is part of a comprehensive academic program that supports the academic progress of our students. All programs are determined by the admin team as well as the students’ Grade Point Average.

The Cambridge curriculum includes rich instruction, high levels of active student engagement, and regular opportunities for students to demonstrate learning. The Cambridge curriculum is designed to help students think deeply, to think critically, to communicate with a range of audiences, and to apply their learning in creative ways.

When the curriculum was introduced to ASU Prep’s other schools, the schools outperformed the state on a range of tests in reading and 9th-grade math. We expect to have similar results in Casa Grande.

In addition to Cambridge, students have access to AP and to ASU college courses as students are bridging from high school to university in the supportive environment of a classroom with a teacher and a success coach that helped them transition in college.

What is blended learning?

In a blended learning environment, each student has access to an individualized pace and plan of study with the support of teachers who are highly proficient in each student’s content area. The blended curricula is designed to give individual students credit for the course and to provide opportunities for students to demonstrate learning. The Cambridge curriculum is designed to help students think deeply, to think critically, to communicate with a range of audiences, and to apply their learning in creative ways.

Will there be weighted grades (e.g. Pre-AP, AP, and honors classes are weighted at their content area)?

Yes. We offer AP courses and Cambridge A and AS courses, as well as Cambridge A2 and Cambridge AS courses. All courses at the advanced level (AP, Cambridge A and AS courses) are designed to meet the needs of students with high academic aspirations.

What supports are provided to students?

In support to support students through the blended learning environment, students also have a Learning Success Coach who works with them to track their academic progress, to develop personalized applications for college and career readiness, to provide support and assistance to meet college readiness standards, and to prepare students as a first point of contact for students and families to get support in being able to graduate from high school and succeed in college.

Students with IEPs or other special needs will be able to be supported by specialized certificated staff so you can access the curriculum and enjoy success in a rigorous learning environment.

What are the graduation requirements?

Families play an essential role in the success of our ASU Prep students. We ask that each of our families take an active role in the education of their child so our school success community.

We partner with families to support students as we implement our blended learning environment plan to continue to provide the opportunities needed to meet the students’ Grade Point Average.

We can only grant high school credit for courses that are approved by ASU Prep. However, if a student can successfully demonstrate competency in a course they have completed, they will earn credit.

We believe that students should be able to access the curriculum and enjoy success in a rigorous learning environment.

What is blended learning?

Blended learning is a method of teaching and learning that combines traditional classroom learning with online learning. It is designed to meet the needs of students with high academic aspirations.

Advanced Placement (AP) courses as well as college-level courses. All courses at the advanced level (AP, Cambridge A and AS courses) are designed to meet the needs of students with high academic aspirations.

What are the graduation requirements?

We require that all students complete 16 units of high school credit to graduate. The 16 units must include 4 years of English, mathematics, and science instruction. Additionally, our teachers all have mentors who work closely with them to continuously provide coaching and support to meet the needs of our learners.
