| Diagnostic and screening testing | N | • Parent/Legal Guardian will be contacted and asked to take their student(s) home if they are symptomatic.  
• Testing is available on each site for symptomatic students  
• Pooled Testing is currently suspended |
| Efforts to provide vaccinations to school communities | N | • ASU Preparatory Academy sends information to parents both encouraging vaccination in general and sharing specific vaccination events. |
| Appropriate accommodations for children with disabilities with respect to health and safety policies | N | • Other learning models are available such as virtual or hybrid. Students can wear a mask at school and maintain physical distancing if that will meet their needs. |
| Coordination with State and local health officials | N | • ASU Preparatory Academy is working closely with Maricopa County and Pinal County on the status of COVID-19. If there is an outbreak in a school community, we will follow the county guidelines. |
## How the LEA will Ensure Continuity of Services?

Coordination between classroom teacher and families on work to be done at home to prepare for their return to school; consideration of mental health needs at return

### Students’ Needs:

| Academic Needs | Coordination between classroom teachers and families on work to be done at home to prepare for their return to school. Classroom teachers will be providing students with materials that can be done asynchronously. The change to county guidelines, which no longer requires quarantine for asymptomatic students who were close contacts, greatly increases a student’s ability to continue attending school as long as they remain asymptomatic. |
| Social, Emotional and Mental Health Needs | Addressed with support staff such as counselors and social workers. Social service resources available in our local communities will be provided to students and families and on our website at [https://asuprep.asu.edu/families/family-resources](https://asuprep.asu.edu/families/family-resources) |
| Other Needs (which may include student health and food services) | Consideration of mental health needs with social worker/identified adult to support return to campus |

### Staff Needs:

| Social, Emotional and Mental Health Needs | Faculty have and will continue to have access to ASU Prep’s Employee Assistance Program, providing free and professional therapy to all benefits eligible employees who desire it. |
| Other Needs | N/A |

The LEA must regularly, but no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools), review and, as appropriate, revise its plan for the safe return to in-person instruction and continuity of services through September 30, 2023

### Date of Revision

September 2022

### Public Input

Describe the process used to seek public input, and how that input was taken into account in the revision of the plan:

Our regular newsletters include information about health practices in place as do our all staff communications.
There is a monthly Health and Safety committee meeting that convenes when necessary to review any data changes and discuss any needed refinement of procedures. Health Plan is posted on the website with a link for input.

U.S. Department of Education Interim Final Rule (IFR)

(1) LEA Plan for Safe Return to In-Person Instruction and Continuity of Services
(a) An LEA must describe in its plan under section 2001(i)(1) of the ARP Act for the safe return to in-person instruction and continuity of services—
   (i) how it will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policies, on each of the following safety recommendations established by the CDC:
   (A) Universal and correct wearing of masks.
   (B) Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding)
   (C) Handwashing and respiratory etiquette.
   (D) Cleaning and maintaining healthy facilities, including improving ventilation.
   (E) Contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments.
   (F) Diagnostic and screening testing.
   (G) Efforts to provide vaccinations to school communities.
   (H) Appropriate accommodations for children with disabilities with respect to health and safety policies.
   (I) Coordination with State and local health officials.
   (ii) how it will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs, which may include student health and food services.

(b)(i) During the period of the ARP ESSER award established in section Start Printed Page 212022001(a) of the ARP Act, an LEA must regularly, but no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools), review and, as appropriate, revise its plan for the safe return to in-person instruction and continuity of services.
   (ii) In determining whether revisions are necessary, and in making any revisions, the LEA must seek public input and take such input into account
   (iii) If at the time the LEA revises its plan the CDC has updated its guidance on reopening schools, the revised plan must address the extent to which the LEA has adopted policies, and describe any such policies, for each of the updated safety recommendations.

(c) If an LEA developed a plan prior to enactment of the ARP Act that meets the statutory requirements of section 2001(i)(1) and (2) of the ARP Act but does not address all the
requirements in paragraph (a), the LEA must, pursuant to paragraph (b), revise and post its plan no later than six months after receiving its ARP ESSER funds to meet the requirements in paragraph (a).

(d) An LEA’s plan under section 2001(i)(1) of the ARP Act for the safe return to in-person instruction and continuity of services must be—

(i) In an understandable and uniform format;

(ii) To the extent practicable, written in a language that parents can understand or, if it is not practicable to provide written translations to a parent with limited English proficiency, be orally translated for such parent; an

(iii) Upon request by a parent who is an individual with a disability as defined by the ADA, provided in an alternative format accessible to that parent.
