How to Contribute
Help us provide enhanced instruction and enriching experiences
Dear Friends and Colleagues:

Thank you for your support of ASU Preparatory Academy. I am happy to share with you some highlights from our 2016–2017 school year. Arizona State University is committed to access and excellence and to taking fundamental responsibility for the communities it serves. ASU Preparatory Academy shares this commitment by demonstrating all students can achieve at the highest levels, regardless of socioeconomic status.

Our 2016–2017 school year was a tremendous year of evolution. We opened a new high school in Casa Grande (and subsequently graduated our first Casa Grande senior class). We also announced additional school openings and partnerships for fall of 2017 in Tempe and Miami, Arizona, and launched ASU Prep Digital domestically and internationally.

Every decision we make is focused on the learner. It is an honor to teach the students we serve every day. ASU Prep values how responsive and supportive you are as we aspire to prepare them for the university and beyond. Thank you for sharing student success stories with colleagues, friends and family. Your advocacy helps ASU Prep cultivate community and business partnerships that enrich and enhance academic achievement for ASU Prep students.

ASU Prep welcomes your feedback, interest and support. If you have something to share or want to get more involved with our community of scholars as a mentor, resource or financial donor, please reach out to us at 480-727-5811 or by visiting our website at asuprep.asu.edu.

Thank you for your support.

Sincerely,

Beatriz Rendón
Chief Executive Officer
ASU Preparatory Academy
Welcome
Chartered by Arizona State University, ASU Preparatory Academy is an innovative and thriving PreK through 12 public charter school serving more than 2,000 students at our Phoenix, Mesa and Casa Grande locations. In the fall of 2017 our ASU Prep Digital and ASU Prep Tempe high schools also joined the ASU Prep family — growing our campus network to four geographic locations and one online.

We strive to equip each of our students with the knowledge and training to graduate high school and be successful in college. We believe that a strong college-going community is imperative for the success of our students, our community and our state.

ASU Prep’s Mission
Our mission is to provide premium environments for learning, helping all students become innovative leaders and problem solvers who are prepared for success in college and their preferred careers.

About ASU Prep
History
Founded in 2008, ASU Preparatory Academy originally operated as University Public Schools, Inc. (UPSI), which opened its first campus in Mesa, Arizona. ASU Prep opened its downtown Phoenix location just one year later, in partnership with the Phoenix Elementary School District, and began moving its Mesa location on ASU’s Polytechnic campus that same year. In 2016, a third location opened in Casa Grande, Arizona, in partnership with Barça Academy.

At ASU Prep
• We are a Cambridge Curriculum school aligned with college and career ready standards.
• Family involvement is the key to our success.
• Our high school graduation requirements are aligned with Arizona State University’s admission requirements.

The ASU Prep Way
Work Hard. Be Kind. Be Smart.

“An amazing school with amazing staff and students. So thrilled to have a wonderful partnership with such educational thought leaders who focus on the needs of their students.”
— ASU Preparatory Academy Facebook Review

“[ASU Prep] started out very strong in education and still is.”
— ASU Preparatory Academy Parent, Facebook Review

“ASU Preparatory Academy actually prepared me for college. I thought I wasn’t ready for anything past college due to the fact I had an I.E.P., which means I needed extra help and a little more time to do things.”
— ASU Preparatory Academy Student, High School Senior, Review posted on education search website

Board Leadership
• José A. Cárdenas, Vice Chairperson, Senior Vice President & General Counsel, Office of the General Counsel, ASU
• George Dean, Chairperson, President & CEO, Greater Phoenix Urban League
• Sybil Francis, Member Director for Strategic Advancement, ASU & Executive Director, Center for the Future of Arizona
• Carole Greenes, Member, Director PRIME Center, Professor of Mathematics Education in the Ira A. Fulton School of Engineering and the College of Liberal Arts and Sciences, ASU
• Chevy Humphrey, Treasurer, President and CEO, Arizona Science Center
• Josephine Marsh, Member, Associate Professor, Mary Lou Fulton Teacher’s College
• Beatriz Rendón, President & CEO, Ex-officio Officer, CEO, ASU Preparatory Academy
• Alice (Dinky) Snell, Member, Retired
Introduction
Curriculum Model

ASU Preparatory Academy is a Cambridge Curriculum school aligned with college and career ready standards, focused on critical thinking skills and deep learning experiences.

The Cambridge Curriculum has been used in more than 160 countries to provide a high-quality instructional program to ensure students are prepared for college and careers. The rigorous Cambridge Curriculum helps students develop critical thinking and learning skills that prepare them for success. Programs are designed to be challenging. Students learn the key concepts of each subject by examining them in depth and at their own pace. Each area is flexible so that teachers can use relevant examples like local context and culture.

Students have to demonstrate core understanding of a subject and be able to think critically. Exams are designed to recognize, reward and encourage this learning. The Cambridge curriculum has different levels meant for different ages of learning:
- Cambridge Primary – for ages 5-11
- Cambridge Secondary 1 – for ages 11-14
- Cambridge IGCSE – for ages 14-16
- Cambridge International AS & A Level – for ages 16+

Classroom Experience

- An Individualized Learning Plan (ILP) is developed for each student in consultation with parents/guardians and families and is conducted quarterly. This plan includes a list of learning outcomes the student is expected to achieve, and a visual indicator of progress. The final level of achievement on each learning outcome will be a part of the student’s 10-week report card.
- Class sizes do not exceed a 30:1 student-to-teacher ratio.
- At the STEM Academy, students engage in content and engineering challenges offered by leading STEM and other partnering organizations.
- Students can explore college majors and career disciplines through personalized academic apprenticeships with ASU faculty and community organizations.
- High school students develop leadership skills, public speaking skills and civic responsibility through Capstone project ventures and university experiences.
- After demonstrating readiness, juniors and seniors have the opportunity to take ASU courses while supported by ASU Prep faculty.
- Students use technology for completing coursework.
- Each quarter, students up to 8th grade work together to create a project/product which showcases the learning achieved during the quarter. At the end of the quarter, students and families gather together in the evening for a display of the work accomplished. These events, called Summatives, are times for celebration of work completed and goals mastered.

Family Involvement

Family involvement is key to our success. Our families contribute a minimum of 30 hours per year to help students succeed.
Results

100%
Four-year graduation rate for the 2016–17 school year

69%
of our students admitted to four-year degree granting universities (63% admitted to ASU)

52%
of our ASU bound students earned merit based scholarships
**Student Activities**

As part of the ASU Prep experience, we encourage all of our students to explore future majors and career paths through internships in areas of interest to them, Capstone projects, community service or clubs and organizations.

**Community Collaborations and Support**

- The Arizona Coyotes hosted a “Takeover” of the Poly STEM Academy’s physical education classes for a day and taught hockey clinics to our students.
- Phoenix students presented at the annual Engineering Projects in Community Service (EPICS) state showcase.

**Cultural Experiences**

- The Arizona Science Center hosted ASU Prep Family Science Night – a special free evening for ASU Prep families featuring ASU Prep students’ science projects on display.
- The Arizona Science Center invited 15 ASU Prep students to redesign the center’s Art of Sound exhibit.
- The Musical Instrument Museum hosted class field trip experiences.

**National and State Acknowledgements**

- The Poly campus (STEM Academy and High School) was a Finalist for 2016 Charter School of the Year.
- Phoenix senior Brooklyn Johnson was featured in a panel with U.S. Secretary of Education John King during an education forum held in Phoenix.
- Fourth grade students at Phoenix and Poly were selected to participate in the National Assessment of Educational Progress, the results of which were released in the Nation's Report Card.

**Student Awards and Recognition**

- Lauren Basye, a Poly STEM Academy student, was named the 2017 Middle School “Prudential Spirit of Community” awardee for the state of Arizona.
- Poly freshman Tateum Gulas medaled in four swim competition events.
- Poly robotics team competed in the AZ State Championship for the 2016 Stronghold Competition.
- Casa Grande robotics team qualified to compete in the Vex Robotics state tournament.
- Casa Grande student Priscilla Ramirez received the Cesar Chavez Scholarship for academic excellence, leadership and volunteerism.
- Phoenix senior Bryan Jaimes was awarded a prestigious Dorrance Foundation scholarship and Charles and Christine Michaels scholarship.
- Phoenix junior, Isabella Escobar, was selected to participate in the 2017 Summer Journalism Institute at the Walter Cronkite School of Journalism and Mass Communication.
- Phoenix students Lily Gonzalez and Van Dexter Calo competed in Boston at the national Marshall Brennan competition, where law students train high school students for moot court competitions.
- Casa Grande freshmen Shreya Muthu and Sydney Smythe competed in the Math League nationals.

“Being at ASU Preparatory Academy is great. The school really prepares me for college. I like how they help us academically for college and how we go on field trips to college. This school has helped me see my options for college and careers. I like how they invite different people from different colleges to help us explore careers. The atmosphere of the school is great, everyone is so polite.”

– ASU Preparatory Academy Student, High School Junior

ASU Student Partnerships

• ASU students at ASU’s College of Public Service and Community Solutions mentored ASU Prep students in leadership and public works.

• Students from ASU’s Chinese Language Flagship Center were invited to share real world experiences with foreign language, studying abroad, and college financing strategies.

• ASU College of Nursing and Health Innovation (CONHI) students led a panel for ASU Prep students to learn about ASU and CONHI from the students’ perspectives, develop an understanding of different collegiate pathways and career options, inquire about high school involvement and grades for college admittance, and receive a tour of the ASU Downtown campus and CONHI Simulation Labs.

• The Mastercard Foundation Scholars Program and ASU students tutored ASU Prep high school students in science and math.

• Students from the Fulton School of Engineering’s Young Engineers Shape the World program visited ASU Prep several times throughout the school year to collaborate and mentor ASU Prep high school students.

ASU Outreach Partnerships

• ASU Prep students participated in academic apprenticeships and mentoring with more than 15 ASU partners, including:
  • Algae Labs, Aviation, Career Services, Changemaker Central, Fulton Outreach, Mary Lou Fulton Teachers College Student Engagement, Print and Imaging Lab, School of Life Sciences Neuroscience Research Lab, School of Sustainability, Student Success Center, Sun Devils Fitness Center, University Housing, University Technology Office (UTO).

• ASU Prep was selected to host the ASU Project Humanities’ second annual symposium on cultural appropriation.

• Barrett, The Honors College provided workshops for ASU Prep Capstone classes, and provided a week-long residential campus living and academic experience for middle school students through the Barrett Summer Scholars program.

• ASU’s College of Liberal Arts and Sciences (Institute of Human Origins) supported ASU Prep students in conducting research related to the development of fairness and generosity in children.

• The ASU College of Nursing and Health Innovation and ASU Prep co-founded the first Healthcare Career Club exposing students to career options and healthcare skills. ASU Prep and CONHI will expand the club this year.

• ASU’s School of Earth and Space Exploration (ETX) hosted virtual field-trip experiences and involved ASU Prep students with research collaboration.

• In partnership with the School for the Future of Innovation in Society, ASU Prep students built 100 SolarSPELL digital libraries to enhance educational opportunities in the Pacific Islands.

ASU Faculty Partnerships

• In partnership with Dr. Gary Moore and Dr. Neal Woodbury from The Biodesign Institute’s Center for Applied Structural Discovery (CASD), ASU Prep was invited to participate in a National Science Foundation awarded grant. As a component of this proposal, summer research opportunities will be developed and made available for students at ASU Prep Phoenix, with a focus on establishing laboratory research skills.

• ASU Prep initiated a partnership with Ariel Anbar and the School of Earth & Space Exploration to assist in the development and implementation of various space exploration simulations and biology for non-biology majors.

• Nobel Laureate, Dr. Leland Hartwell and ASU Prep have partnered together to enhance middle school science through the development of an 18-week exploration of the senses exposing students to scientific research while working alongside Dr. Hartwell and other experts in the field.
In the fall of 2017, ASU Preparatory Academy launched two new high schools to continue our mission of providing premium environments for learning, helping all students become innovative leaders and problem solvers who are prepared for success in college and their preferred careers. ASU Prep now has face-to-face, hybrid, blended and fully digital modalities available to personalize student learning.

**ASU Prep Digital**

ASU Prep Digital is a new college prep option where digital high school and university courses converge in a unique learning opportunity for all students. Built on the Cambridge International Curriculum framework, this rigorous virtual school program prepares students for acceptance at leading universities and encourages them to explore future college majors and careers in an increasingly interconnected environment. Coursework is 100% online which means students can take courses any time they want, from any location in the world and ASU Prep Digital provides full-time or part-time class options. Prep for college. Prep for careers. Prep for life.

Visit asuprepdigital.org for more information.

**ASU Prep Tempe**

ASU Preparatory Academy Tempe is a public charter high school located in Tempe, operating in partnership with the Tempe Union High School District. The high school is located onsite at Compadre Academy and is open to the public. The Tempe location is ASU Prep’s fifth high school. Students are able to learn and partner with their peers at the other campuses and with professors from ASU. Like our other campuses, students learn using the challenging, internationally acclaimed Cambridge Curriculum and have the opportunity to take ASU courses when ready, with support from their teachers. Every student is guided to explore college majors through apprenticeships with ASU faculty and community organizations. Students also have ASU Prep Capstone classes, designed to help them develop leadership skills, community service projects and explore future careers. ASU Prep Tempe is a blended learning school where students receive a mix of in-person and digital learning.

“My children have been attending this school for 5 years, my 2nd eldest was one of the graduates of the first graduating class of 2015. It is an EXCELLENT school. From office staff, to maintenance, to teachers to admin. Everyone is friendly and professional. I feel I made the best choice for my children’s education.”
